work

Agile transformation
and inclusion

Cloud revolution
and modular IT

Change is not an event but a process...

Distributed teams
and remote/hybrid work

74%

of professionals **expect remote work to become standard.**

Growmotely/Forbes

Agile transformation
and inclusion

80%

of organizations **apply both classic and hybrid approaches to management.**

State of Agile 2021

Cloud revolution
and modular IT

89-93%

of organizations already **use cloud in some form.**

O'Reilly

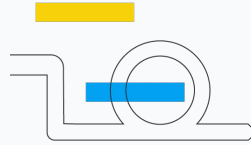

...which implies numerous intermediary challenges

Distributed teams
and remote/hybrid work

Information scattered across
people and places

Agile transformation
and inclusion

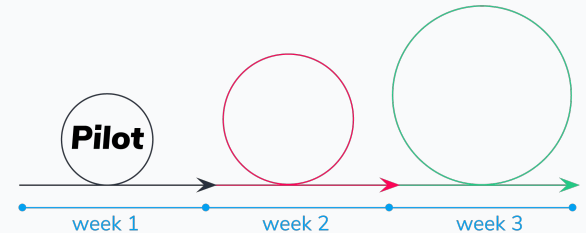

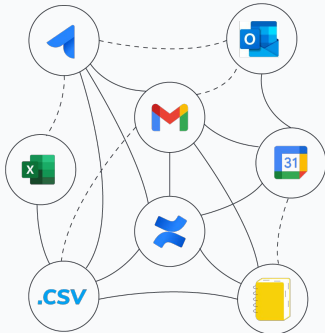

Hybrid initiatives and hybrid
portfolios

Cloud revolution
and modular IT

Demand for efficient software
implementation

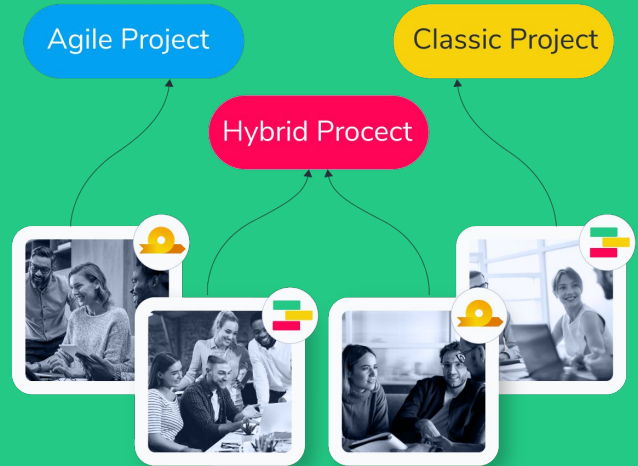

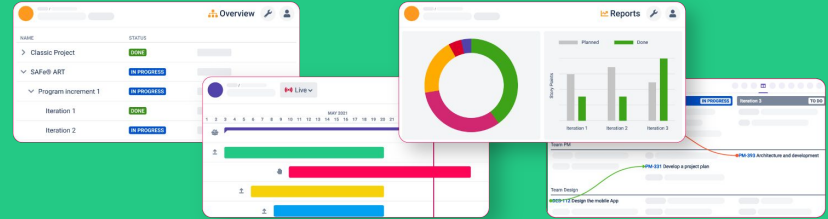

We believe agile and non-agile teams can collaborate effectively using their preferred software tools.

We believe managers can plan, track, coordinate, and report on progress in a standardized way, based on reliable data.

We believe this is all possible without implementing yet another heavy-weight management system.

The solution is here. Discover BigPicture for Jira!
