## Use Cases

### PPM READINESS ASSESSMENTS

We specialize in developing strong PMO's built on solid process design. We evaluate the maturity of your PMO from the specific perspective of implementing a PPM solution or improving an existing PPM implementation.

### BUSINESS PROCESS GUIDANCE

Software is only part of the solution. Our expert staff can help your organization see its fullest potential by helping develop or refine your business practices and integrate them with your PPM implementation to get the most out of your investment.

### EFFICIENT IMPLEMENTATIONS

Whether it's a Rapid Prototype, ideal for clients interested in getting up and running as quickly as 4-6 weeks, or a Quick Start, our 6-12 week implementation process designed for clients with unique process and reporting needs, we have an implementation process that will fit your schedule and budget.

### INTEGRATIONS

We understand that PPM practices and data do not exist in a bubble, and that sharing data across various systems is often critical to a successful implementation. We have integrated Broadcom's PPM solutions with countless applications including financial management, contract management, document sharing, collaboration tools and more.

### RE-IMPLEMENTATIONS

Not all implementations go as anticipated, whether it be leadership changes, acquisitions, regulatory changes or just a poor understanding of the software. We have rescued many such projects that initially faltered! We have the expertise to correct the course of an errant project and get your organization back on track.

## Types of Services

### CUSTOM IMPLEMENTATIONS

Whether it is a Rapid Prototype, Quick Start, or completely custom implementation, we have the experience and expertise to guide your implementation in a timeframe that is reasonable and cost effective.

### MANAGED SERVICES

We provide a matrix of managed services offerings to support your organization. Our services range from basic administration to complete end-to-end support with full-time staff.

### STAFF AUGMENTATION

We offer dedicated staffing to organizations that have PPM resources, but either need more manpower or have skills gaps that need to be filled. Our expert staff can augment your team and provide the skills needed to get the job done.

### MANAGEMENT & SUPPORT

Every engagement will have a dedicated manager to ensure that every aspect of your implementation goes smoothly. We also offer post go-live support to make any adjustments needed and can provide end user training to ensure that adoption is a success.

## Solutions Areas of Expertise

Winmill is the premier services provider for Clarity PPM and Rally software. We have decades of experience developing PPM best practices, which includes implementing Clarity PPM and Rally along with business process development, coaching and training.
