Extreme Programming (XP) for Everyone

Unlocking High Performing Product Teams

JUL 2022

KAELIN BURNS, VP OF PRODUCT @ ARTIUM

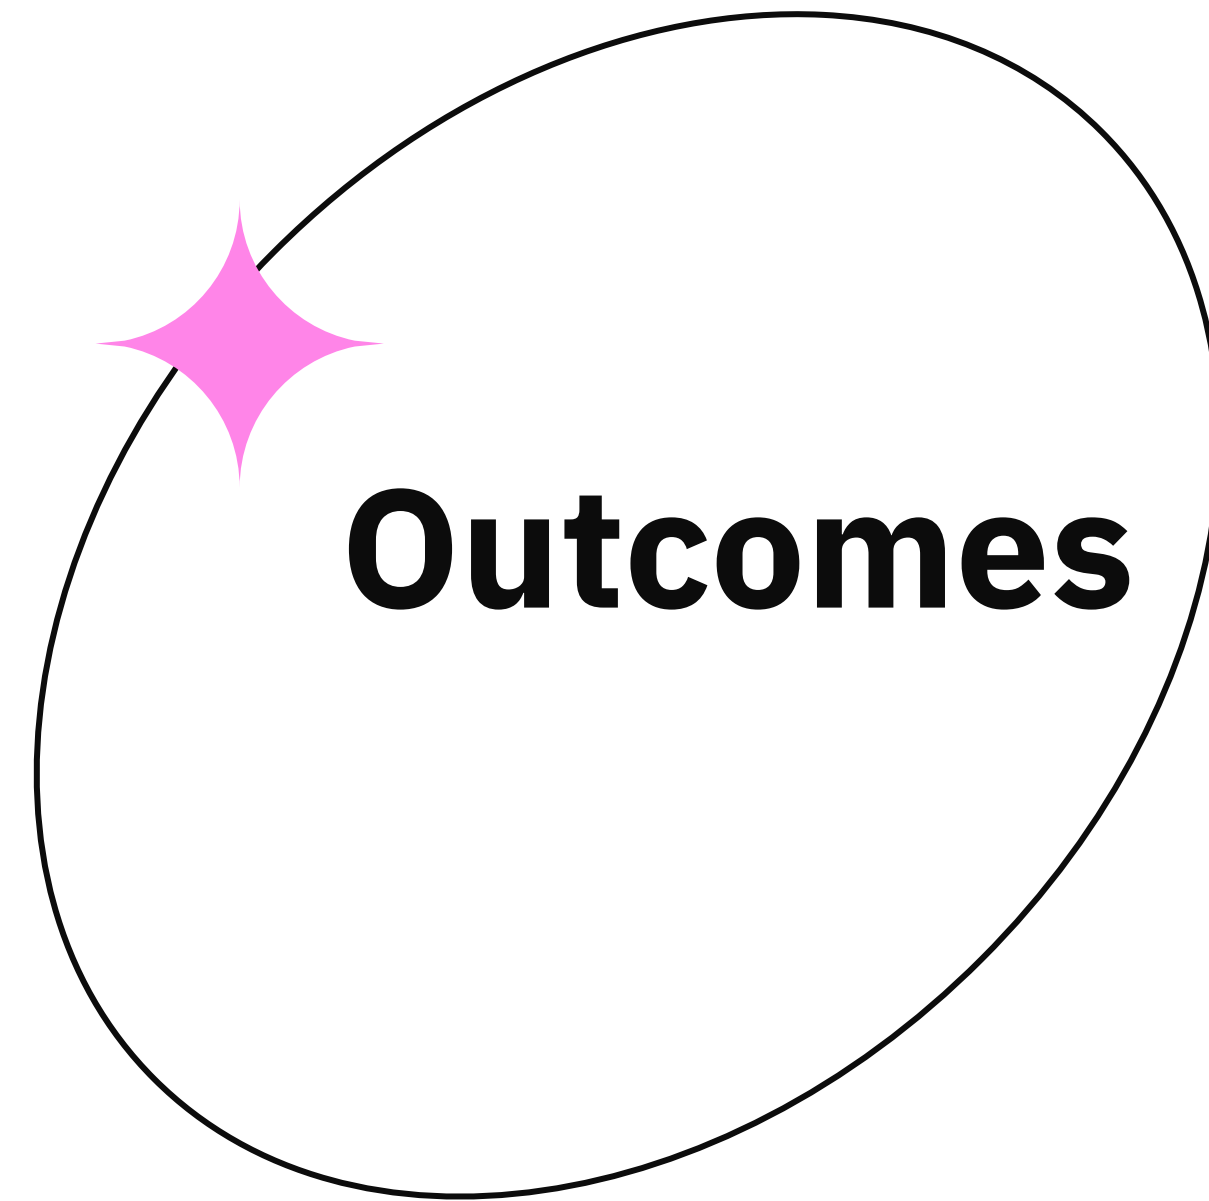

Hello, world!

Say **hello** to your neighbor –
and tell them your **favorite** ice
cream flavor!

1. Understanding XP product culture
2. Experiencing the value of XP practices from a non-technical perspective
3. Aligning product practices with engineering practices in XP

What makes
good product
culture?

**Effective and happy
teams that produce
high **quality** and high
value work that
everyone can be **proud**
of.**

Who has heard of **Extreme** **Programming?**

Extreme Programming
(XP) is a proven
method to produce
higher quality code
and work better
together.

The values and principles of XP are **aligned with many product practices.**

**XP values and principles create
high performing product teams.**

```
3 class Library
4   def initialize(file_name)
5     @database = SQLite3::Database.open(file_name)
6     @authors = populate_authors
7     @books = populate_books
8   end
9
10  def populate_authors
11    @database.execute("
12    insert into writers(first_name, last_name, created_at, updated_at) values
13    '#{Faker::Name.first_name}',
14    '#{Faker::Name.last_name}',
15    DATETIME('now'),
16    DATETIME('now');
17    ")
18  end
19
20  def populate_books
21    @database.execute("
22    insert into books(title, published_at, created_at, updated_at) values (
23    '#{Faker::Name.title}',
24    DATETIME('now'),
25    DATETIME('now'),
26    DATETIME('now'));
27    ")
28  end
29
30 end
31
32 class Authors
33   attr_reader :id
34
35   def initialize(args = {})
36     @id = args.fetch("id")
37     @first_name = args.fetch("first_name")
38     @last_name = args.fetch("last_name")
39     @created_at = args.fetch("created_at")
40     @updated_at = args.fetch("updated_at")
41   end
42
43   def add(args = {})
44     @database.execute("
45     insert into writers(first_name, last_name, created_at, updated_at) values (
46     '#{Faker::Name.first_name}',
47     '#{Faker::Name.last_name}',
48     DATETIME('now'),
```

Prepping for DBC

Together at last

Communication & Respect

Activity: Puzzle Time

01

You have 60 seconds to solve this puzzle by yourself.

Three friends have lunch and decide to split the \$30 bill evenly. The restaurant was having a special, so they got \$5 back. They each keep one dollar and give the server a \$2 tip.

Later, one friend is looking at their expenses and finds a problem.

They each paid \$10 for the lunch and got \$1 back each, so they paid \$9 total.

Then they gave the server a \$2 tip. However, 9 times three is 27, plus two is \$29.

Where did the extra dollar go?

Quick check in

How

did that go?

Activity: **Puzzle Time** (round two)

01

Choose a partner.

02

You have 3 minutes seconds to solve this puzzle together.

Three friends have lunch and decide to split the \$30 bill evenly. The restaurant was having a special, so they got \$5 back. They each keep one dollar and give the server a \$2 tip.

Later, one friend is looking at their expenses and finds a problem.

They each paid \$10 for the lunch and got \$1 back each, so they paid \$9 total.

Then they gave the server a \$2 tip. However, 9 times three is 27, plus two is \$29.

Where did the extra dollar go?

Where did the extra dollar go?

Debrief:

How did that feel? What was surprising? What did you learn?

Pair Programming

Pair Programming

Product Squad

Synchronous
collaboration is
efficient and
drives quality.

◆ → **Share user feedback and interview synthesis**

◆ → **Get squad input on opportunities**

◆ → **Ideate on solutions as a squad**

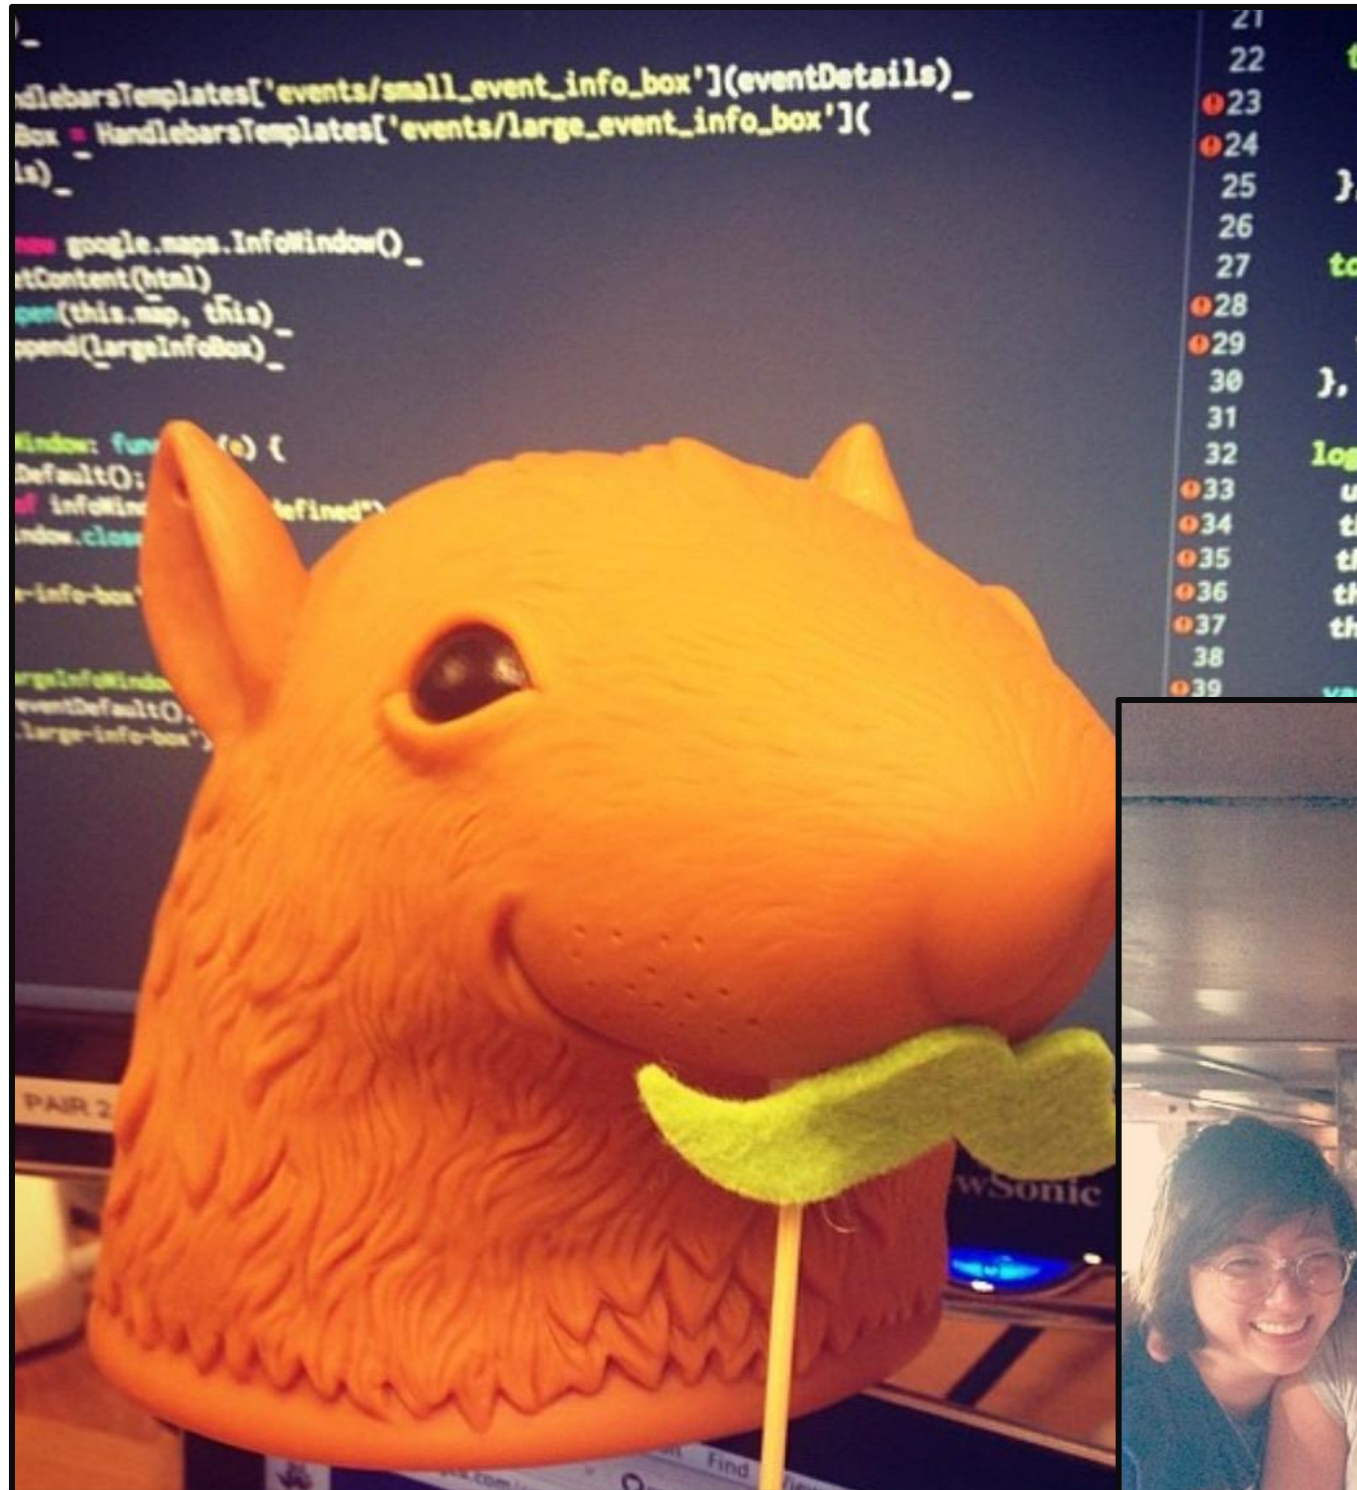

**...the Story
continues...**

Project: Local Beat

• LATE NIGHTS

• GROUP HUGS

Snacks, Swag, and Margs

Priority, priority,
priority

Simplicity

Activity: Drawing

01

Pick a NEW partner.

02

Listen for the requirements.

03

As a pair, you have a whole 60 seconds to draw one picture of boat together.

Quick check in

How

did that go?

Activity: Drawing (round two)

01

With your same partner, but on a new sheet of paper and the same requirements...

02

You have a only 30 seconds to draw one picture of boat together.

Quick check in

How

did that go?

Activity: Drawing (round three)

01

With your same partner, but on a new sheet of paper and the same requirements...

02

You have a only 5 seconds to draw one picture of boat together.

Debrief:

How did that feel? What was surprising? What did you learn?

Simple Design

Simple Design

MVP

**Empower teams
with **outcomes** to
allow them to
choose the
simplest solution.**

- ◆ → **Drive the creation of business outcomes**
- ◆ → **Create product outcomes with your squad**
- ◆ → **Get your squad to challenge your MVP definition**

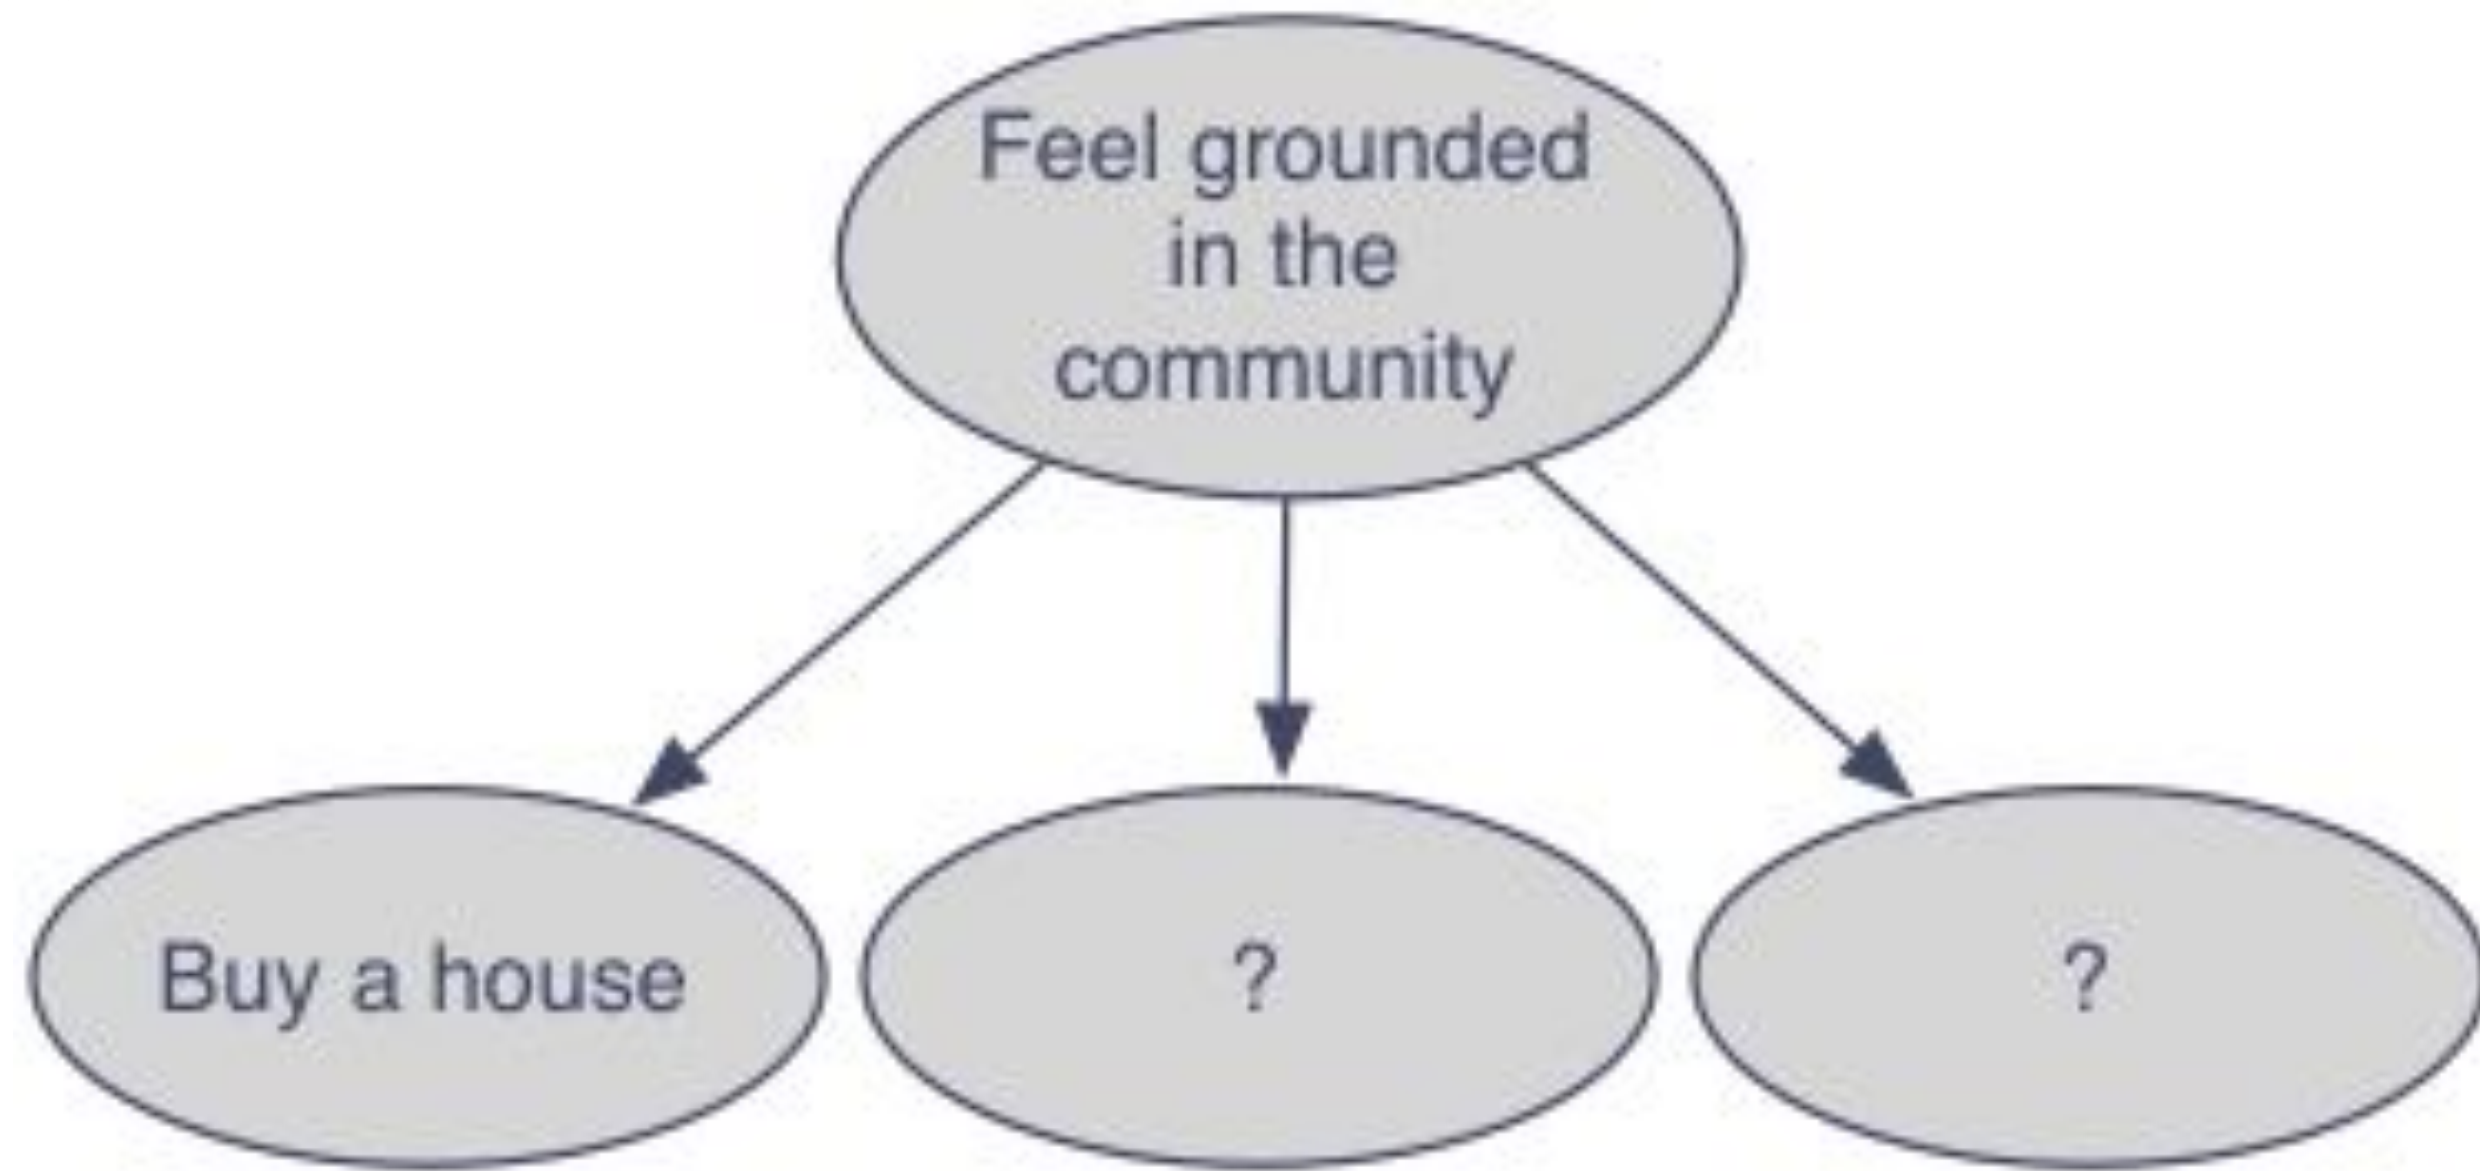

**Embrace
Change**

Who is familiar with **Opportunity** **Solution Trees?**

What's
something you
want in your
life?

Activity: Goals

01

Solo: Write down something you want in life.

02

Solo: Write down what achieving this goal would do for you.

03

Solo: Ideate on how else you might achieve that larger goal.

04

With a (new) partner: share and discuss your goal.

Debrief:

How did that feel? What was surprising? What did you learn?

OSTs

Continuous Integration → Continuous Discovery

**Speed is nothing
without quality;
Continuous
practices help
you achieve both.**

**Create an OST with
your product squad**

**Talk with customers
every week**

**Set team up for Dual Track
Development**

XP is for
everyone.

Questions?

Feedback

Always be iterating.

Let me know one thing that you liked about this session and one thing that would have made this session better.

**Thank
You**
