THE LOOK I GIVE

**WHEN I'M COMPLETELY
OVERWHELMED**

**How do we know
when our teams are
struggling?**

Activity #1

How do we know when our teams are struggling?

What are their behaviors?

What does their performance & work product look like?

What are requesters and product owners saying?

Anything else?

TOP REASONS FOR BURNOUT:

25.3% Unmanageable workload

15.7% Insufficient rewards

15% Lack of control over work

13.4% Lack of support from manager

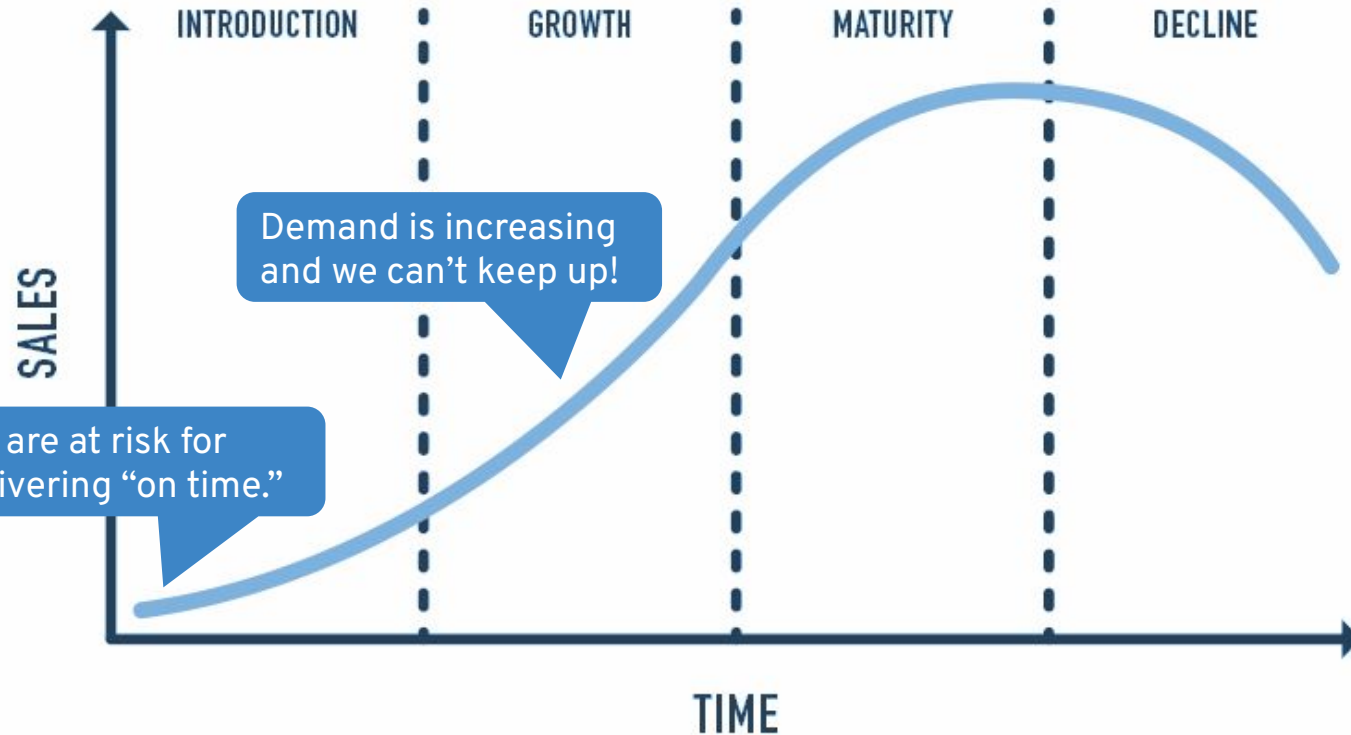

12.2% Burnout is not a problem here

10.2% Unfair treatment

8.3% Other

blind

Product: Productivity Tooling

Scenario: High demand due to dependencies & critical cyber work

Excellent team work
Get sh*t done attitude

Hard to meet with - always busy
Most dependencies from other teams
PI Carryover
Long feature list

Demand Analysis

Request Types	Tracked / Not Tracked	Source	Arrival Rate	Capacity <small>Are you able to service the monthly rate without working over 40 hrs/week?</small>
<i>Example: Enhancements</i>	<i>Tracked</i>	<i>PO or Team Name or Organization</i>	<i>5-15</i>	<i>No - Sometimes we cannot service the monthly rate in a 40hr workweek</i>

Resource: [Google Sheet](#)

Demand Analysis

Request Types	Tracked / Not Tracked	Source	Arrival Rate	Capacity Are you able to service the monthly rate without working over 40 hrs/week?
<i>Example: Enhancements</i>	Tracked	<i>PO or Team Name or Organization</i>	5-15	<i>No - Sometimes we cannot service the monthly rate in a 40hr workweek</i>
Migration	Tracked	Team A	1-2	No - Sometimes we cannot service the monthly rate in a 40hr workweek
Enhancements	Sometimes Tracked	Any Team in ART	30-40	Yes - We can service the monthly rate without working overtime
Governance	Sometimes Tracked	Team C	200	Yes - We can service the monthly rate without working overtime
Research	Tracked	Security / Team B	25	No - Sometimes we cannot service the monthly rate in a 40hr workweek
Support	Not Tracked	Ops, Slack, LOB, Security	400	No - We definitely cannot service the monthly rate in a 40hr workweek

Actions

“Intentional priority”

Limited work in progress

Shifted some work to an L3 support team

Results

Better pace of work

Leaders more involved in PI planning & prioritization conflicts

Activity #2 - Demand Analysis

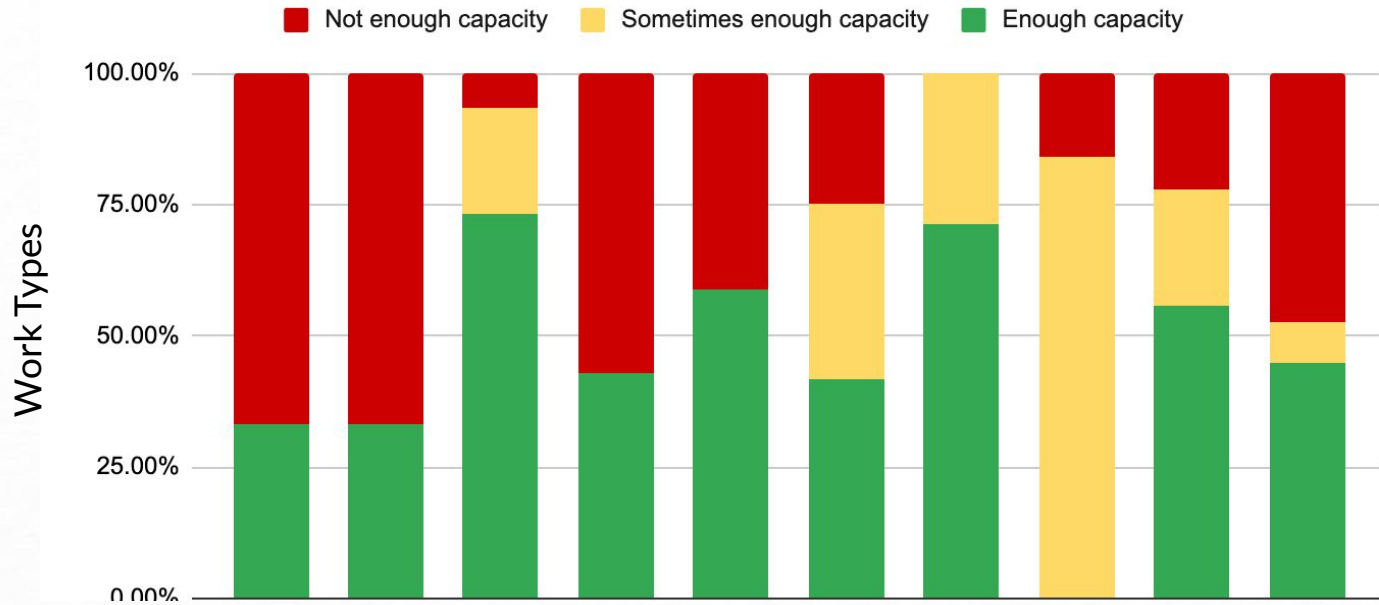

Request Types	Tracked / Not Tracked	Source	Arrival Rate	Capacity <small>Are you able to service the monthly rate without working over 40 hrs/week?</small>
<i>Example: Enhancements</i>	<i>Tracked</i>	<i>PO or Team Name or Organization</i>	<i>5-15</i>	<i>No - Sometimes we cannot service the monthly rate in a 40hr workweek</i>

Why is it important to let the team create this?

Making the case for change

“Can we handle the monthly rate without working over 40 hours per week?”

After some time, the feedback changed...

**We need
more people**

**We need
clear
prioritization**

Timing Tip: Don't wait - plant seeds & bring your manager along

Story Time...

API AVENGERS

Tech: APIs for customer-facing apps

Scenario: High demand

High delivery rate

Unhappy - High turnover
Agility Health morale scores low
Could never find time to automate
Outside perspective, is this normal?

	Full Scope	5% Reduced Scope	10% Reduced Scope	20% Reduced Scope
Remaining Epics	55	52	50	45
Delivery Forecast with 85% Confidence	Late Aug	Mid July	Mid June	Mid May
Customer conversion	10 million	9.5 million	8 million	6 million

Tip: Align your ask to what decision makers care about

Revenue growth | Cost savings | Customer value | Risk reduction | Accelerated productivity

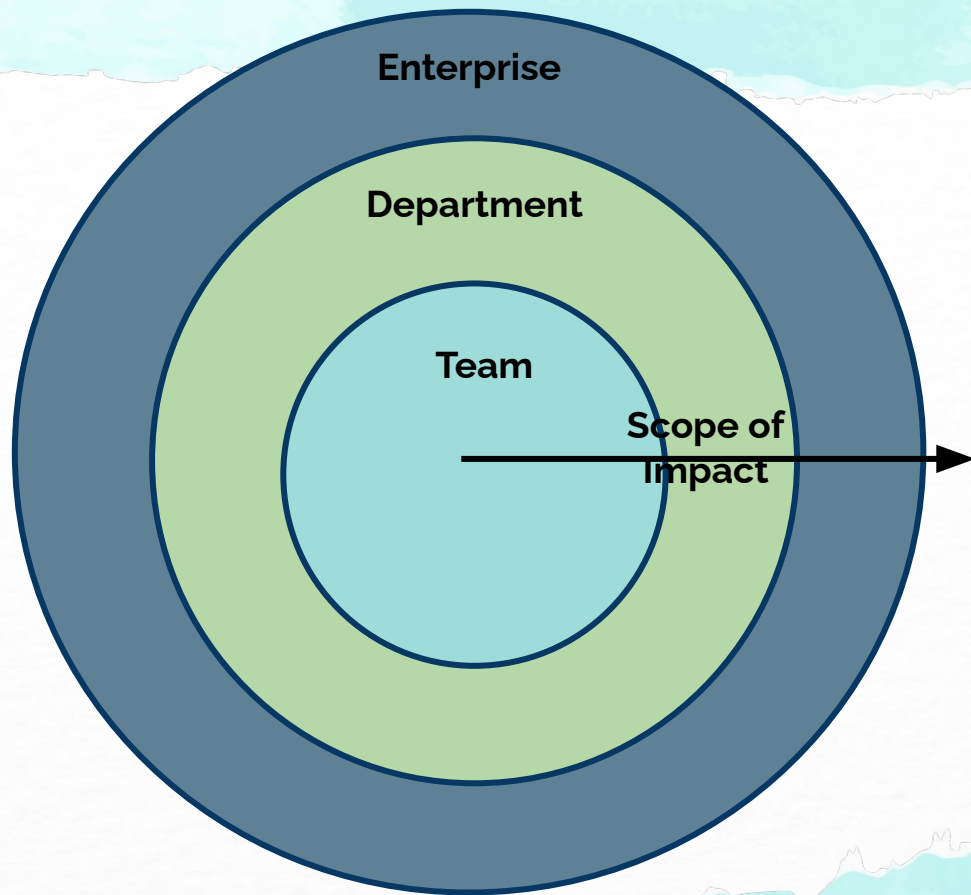

Decreased redundancy | Customer satisfaction | Employee satisfaction and retention

Activity #3 - Knowing Your Decision Maker(s)

Name	Decision maker or stakeholder?	Top Objectives	Top Pain Points / Challenges	

Tip: Show your impact

Proposal

Problem Statement: The demand for our team has increased X% over the last X months, impacting _____ and _____.
(use objectives they care about)

Proposal (& Benefits): If we focus on enabling a self-service chatbot, we can accommodate 25% of the new demand and share our learnings and chatbot platform across our servicing teams.
(use objectives they care about and show how your solution can positively impact other teams/products)

Tip: Build Trust

Character

Results

Tip: Build Trust

Conversation with your boss:

"Hey, I'd really like to talk about what I'm proud of right now. What's the best way to get that to you?"

Do you want it written out?

Do you want to do a quick call?

Do you want to have me present it to you?

I want to make sure that you're able to see what I'm doing even though I can't walk by your office."

Find your advocates

Name	Decision maker or stakeholder?	Top Objectives	Top Pain Points / Challenges	Who do they trust? (potential advocates)

*Outside consultants can also help influence

7 Tips for influencing leaders

Timing Tips:

- Don't wait... plant seeds & bring your manager along
- Know your budget cycle
- The earlier the conversation, the more options available

Other tips:

- Show supporting data
- Align your ask to what decision-makers care about
- Show your impact
- Build trust and/or ask others to help advocate
