Round 1: Mess It UP

Take three turns each, round-robin style. During your turn:

1. Roll the dice to determine your budget to build features.
2. Turn over a card from the draw pile, one at a time.
3. Add the effort points from each card until that total equals your budget without going over.
4. If the next card puts you over your budget, leave it face-down on the draw pile for the next player.
5. Keep your cards. This represents what features are built.
6. **Scoring:** Record the number of effort points collected by player.
7. **Reflection:** Review the features selected and discuss their value.

The background is a light cream color, decorated with various autumn-themed elements. There are several large, stylized leaves in shades of green, yellow, and orange. Abstract shapes in blue and teal with orange dots are scattered around the edges. A blue swirl is in the bottom left, and a blue shape with black dots is in the bottom right. The text is centered in a grey, sans-serif font.
