A screenshot of the ChatGPT settings interface. The 'Settings' dialog is open, showing the 'Beta features' section. Two features are highlighted with red boxes: 'Plugins' and 'Code interpreter', both of which have their respective toggle switches turned on. The background shows a chat history sidebar on the left and a chat input area at the bottom. The 'Plugins' feature description reads: 'Try a version of ChatGPT that knows when and how to use third-party plugins that you enable.' The 'Code interpreter' feature description reads: 'Try a version of ChatGPT that knows how to write and execute python code, and can work with file uploads. Try asking for help with data analysis, image conversions, or editing a code file. Note: files will not persist beyond a single session.'

**Enable plugins and code interpreter**

The image shows a screenshot of the ChatGPT settings interface. A modal window titled 'Settings' is open, with the 'Data controls' tab selected. The 'Chat history & training' toggle is turned on and highlighted with a red box. Below it, there are options for 'Shared links', 'Export data', and 'Delete account'. The background shows a list of chat conversations on the left and model selection buttons (GPT-3.5 and GPT-4) at the top.

Limitations/Mitigation

# Human behaviors predictability

93% Predictable

Northeastern University research shows

Simple Prompt in ChatGPT

**Prompt: What's the tallest mountain in the world?**

Response: The tallest mountain in the world is **Mount Everest**. It is located in the Himalayas on the border of Nepal and China (Tibet). Mount Everest has an official elevation of 8,848.86 meters (29,031.7 feet) above sea level. It is renowned for being the highest point on Earth and a popular destination for mountaineers.

# Guidance

## DETAILS MATTER

The more detailed the prompt and information he has to work with, the better the result.

- Be specific.
- Provide context.
- Direct instruction.
- Experiment and iterate.
- Use roleplay.

# ChatGPT Introductory Prompt

I want you (ChatGPT) to act as a ...

I will provide/describe the ...

You will ...

My first request is...

# Prompt Engineering

## Sample Format:

[ **“I want you (ChatGPT) to act”** ] as a professional, successful songwriter.

[ **“I will provide/describe the”** ] the song topic, lyrics, and/or genre.

[ **“you will”** ] write a song, describe the rhythm, and give me examples of who would be the best artist to hire to sing the song.

[ **“My first request”** ] is write a song about potatoes and soccer.

# Exercise: Problem Statement

**"I want to surprise my partner  
with a birthday party"**

I want you (ChatGPT) to act as ...

I will provide/describe the ...

You will ...

My first request is...

## Exercise:

"I want to surprise my partner with a birthday party"

1. Create your own prompt for the problem statement following this format:

I want you (ChatGPT) to act as ...

I will provide/describe the ...

You will ...

My first request is ...

2. Share your answer through **Poll Everywhere**

# Text to Table

⚡ Model: Default (GPT-3.5)

GE Create a table for me for some of the things I'd need to buy for the birthday, with possible prices

🧠 Certainly! Here's a sample table with some common items you might need for a birthday surprise, along with estimated prices:

Item	Description	Estimated Price Range
Birthday Cake	Customized cake from a bakery	\$30 - \$100
Decorations	Balloons, streamers, banners, party supplies	\$20 - \$50
Party Venue	Rental fee for a party venue	\$100 - \$500
Food and Drinks	Ingredients for a home-cooked meal or catering	\$50 - \$300
Gifts	Personalized gift or desired item	\$20 - \$200
Flowers	Bouquet or arrangement	\$30 - \$100
Activities/Entertainment	Tickets to a show, concert, or event	\$50 - \$200
Transportation	Travel expenses for a surprise getaway	\$100 - \$500
Miscellaneous	Wrapping paper, cards, party favors, etc.	\$10 - \$50

Please note that these prices are approximate and can vary depending on your location, specific requirements, and the quality of the products or services you choose. It's always a good idea to research and compare prices from different vendors to find the best options within your budget.

🔄 Regenerate response

# Text to Code

GE Using conditional statements, write a Java program that computes for 10 percent fare discount of a senior citizen and 8 percent fare discount of a student. There will be no discount if not a senior citizen and not a student. The user will be asked to enter age. The minimum fare is 9 pesos.

🧠 Sure! Here's a Java program that calculates the fare discount based on the user's age and the minimum fare:

```
java 📄 Copy code

import java.util.Scanner;

public class FareDiscountCalculator {
    public static void main(String[] args) {
        Scanner scanner = new Scanner(System.in);

        System.out.print("Enter age: ");
        int age = scanner.nextInt();

        double fare = 9.0; // Minimum fare

        if (age >= 60) {
            fare = fare - (fare * 0.10); // 10% discount for senior citizens
        } else if (age <= 25) {
            fare = fare - (fare * 0.08); // 8% discount for students
        }

        System.out.println("Discounted fare: " + fare + " pesos");

        scanner.close();
    }
}
```

## Voxscript

Empowers agile teams with efficient information retrieval from YouTube, financial data sources, and Google search, enhancing research and workflows

GE

Open youtube and give me a list of videos about Agile Anti-patterns with the highest views and summarize each in 3 sentences.

Used VoxScript

Here are the summaries of the top 5 videos about Agile Anti-patterns with the highest views:

- Agile anti-patterns | 10 EXAMPLES of anti-pattern | Scrum anti-pattern | What is Anti-pattern?** by JOGO Agile Coaching
  - This video explains what an anti-pattern is in Agile projects and why they should be avoided. It provides examples of 10 anti-patterns related to Scrum roles, events, and artifacts. The video emphasizes that anti-patterns can lead to undesired outcomes and new problems, often being ineffective and counterproductive. They can increase technical debts, create confusions within the team, impact productivity, and affect the effectiveness of product delivery.
- 12 Agile Anti Patterns to watch out for** by RedAgile Scrum Training
  - The video discusses 12 common Agile Anti-Patterns to watch out for during Agile transformation. It emphasizes the importance of understanding the "why" behind Agile transformation, giving people flexibility in their way of working, creating a safe environment for failure, and breaking the Iron Triangle (fixed scope, cost, and time) in Agile.
- 4 WORST Agile Scrum Master Anti-Patterns (STOP MAKING THESE MISTAKES...)** by Your Agile Coach
  - This video identifies common Scrum Master anti-patterns and provides solutions to them. The anti-patterns discussed include the Scrum Master acting as a project

# Top 5 ChatGPT Plugins for Agile Teams

## DailyBot

Supports Agile teams with automated standups, asynchronous communication, project tool integration, and analytics reports.

Open Dailybot, provide feedback, identify what's missing in this standup, and put in a summary table:

Used DailyBot

Here is a summary table of the standup:

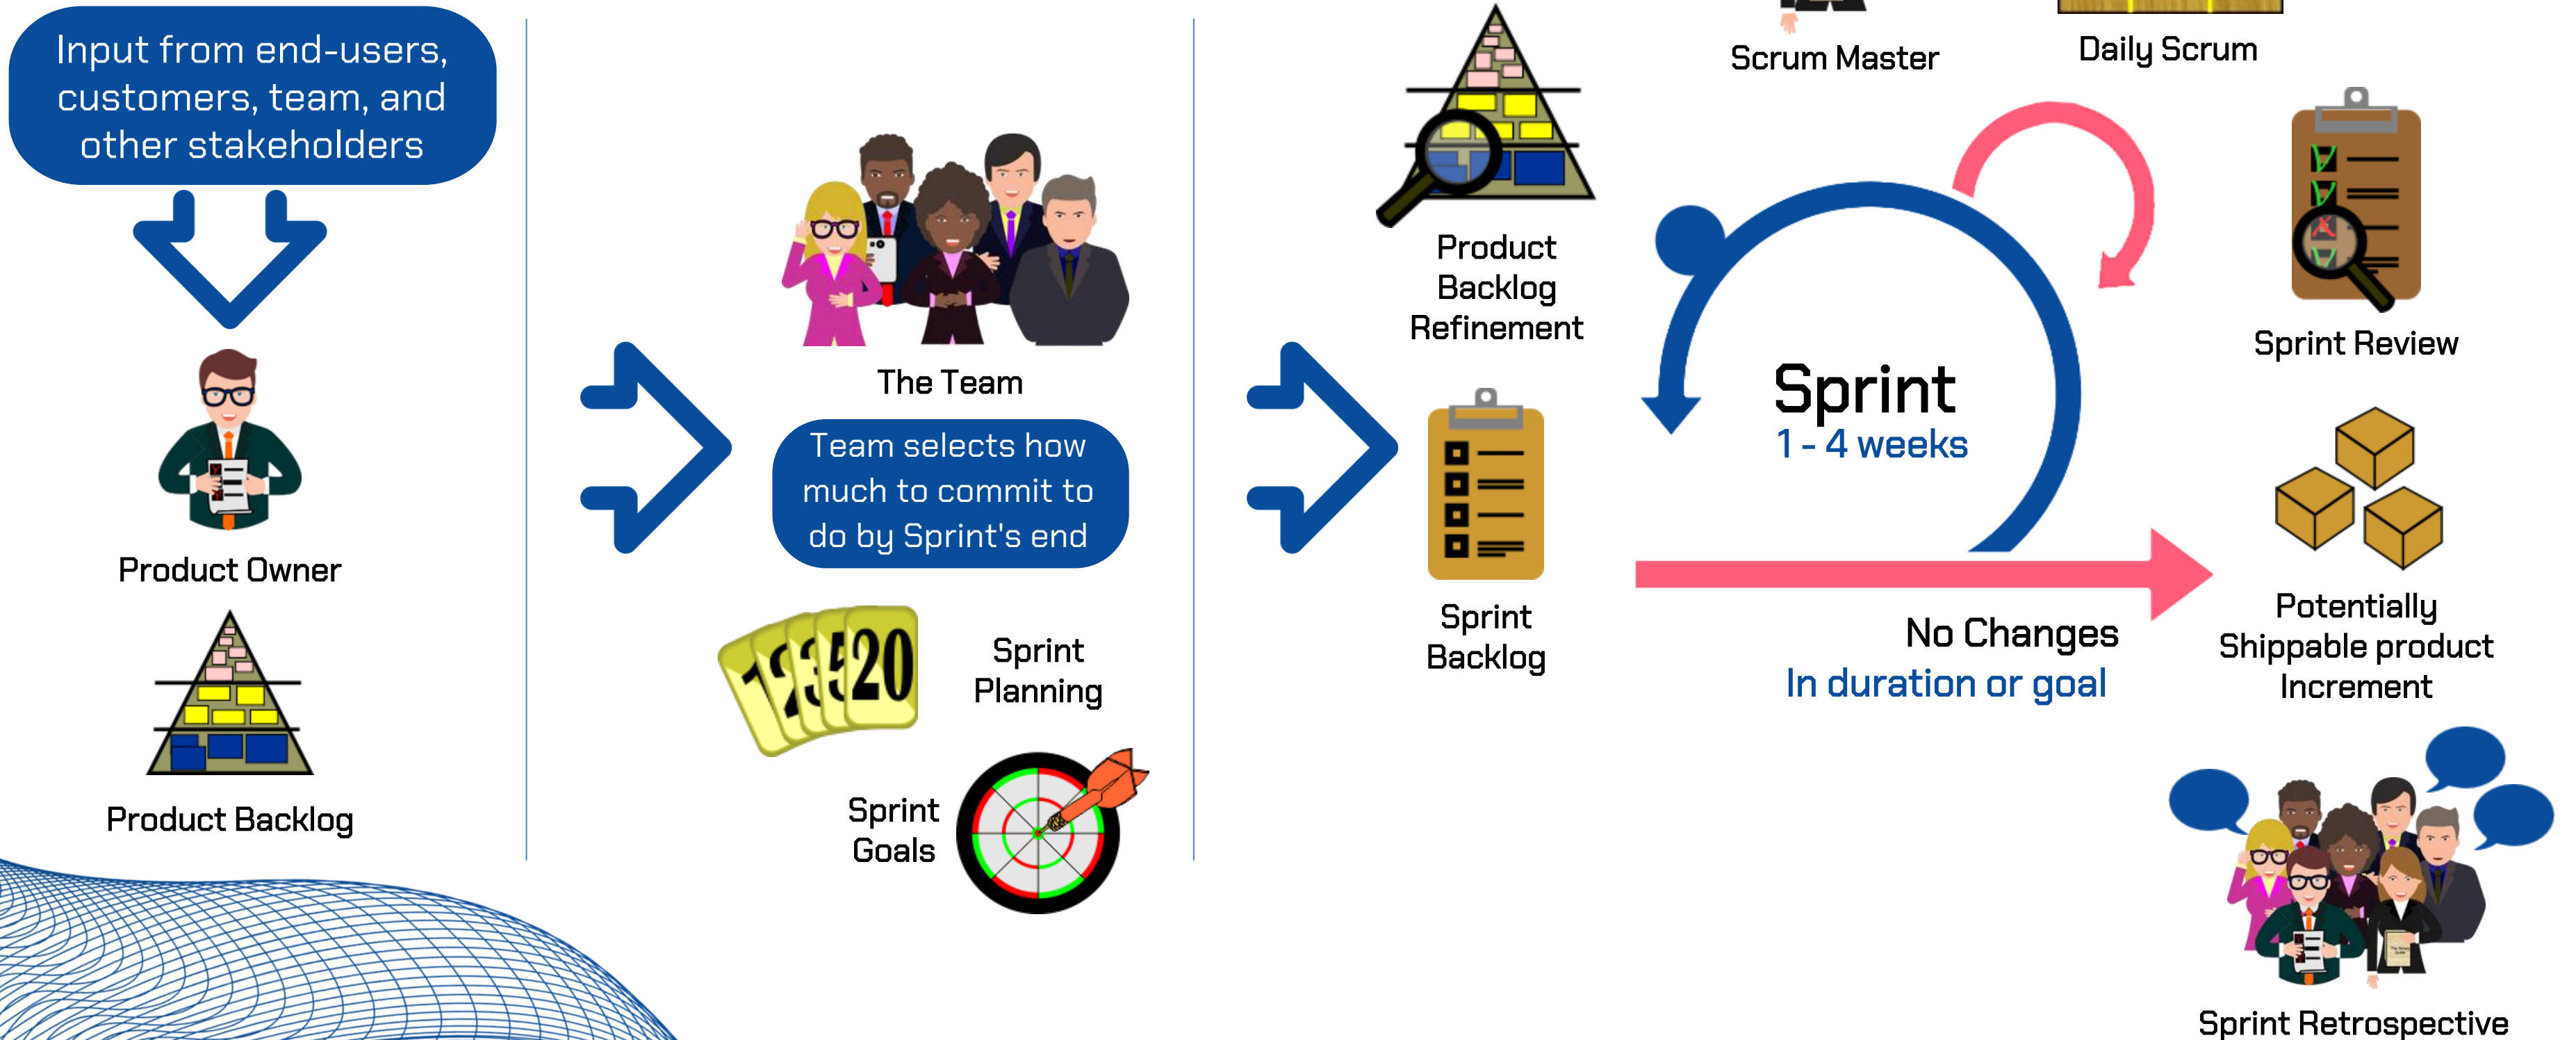

Team Member	Tasks	Blockers	Help Needed
Alfonso	Working on AI conference promotion card and website speaker section MVP	None mentioned	None mentioned
Unnamed Team Member 1	Working on Agile alliance itinerary and posting event manager position	Needs Regina for itinerary	None mentioned
Unnamed Team Member 2	Uploaded most recent version of slides, preparing for meeting tomorrow	None mentioned	None mentioned
Ricardo	Working on various client tasks, blog post review	Waiting on responses from clients	None mentioned
Jose	Working on AI conference speaker section	None mentioned	None mentioned
Unnamed Team Member 3	Followed up with Henry and Jimmy for AI conference, sent save the date to Abby, communication for Lisa Atkins, meet up related tasks	None mentioned	Feedback on communication for Lisa Atkins
